## THE LEADER PATH

## 2021 - 2030, Nine years to realize the UN SGD's and world we want

For the past 10 years, there has been a concentrated effort in the women's leadership space, a decade-long training camp. Like athletes, women and those who identify as women have been preparing, receiving coaching, undergoing rigorous confidence and capacity-building programs, and building valuable connections. And now, game day is upon us. The Leader Olympics are here!

## GUESS WHAT? No more training. It's time for intentional action.

PowHERhouse is a convener, catalyst, and conduit for impact.

Born in 2000 from a desire to provide a clear and direct framework for a better world and a house of support to ensure that those ready to meet their ultimate potential for impact and lead deeply fulfilling lives can do so on their own terms while interconnected with others on a similar path.

**THE LEADER PATH is a collective convergence of like-minded brave humans, fiery commitment, and energized action** to create the world we want by 2030 and help to heal the humans of this planet for HER, human expansion realized.
